2 Introduction

This document provides "How to Instructions" for the component "Global Properties - Navigation".

2.1 Short Description

Navigation on Evolution pages can be set via Global properties. Nested navigation and Navigation with Promo links can be included Evolution pages

Feature Overview

Note: Maximum is not set on AEM – and AEM allows Author to include as many Navigation links, but, following are the recommendations to the Author

- Maximum 3 categories at the primary level
- Min 2 categories, recommended Max 5 categories in the secondary level

Nested Navigation

- i. All categories at Primary level can have nested navigation
- Maximum 3 columns in one row in the tertiary level (- can change based on Geography, recommended maximum 8 links per column and links can be divided among the Columns by the Author)

Promo with 2 Columns/Single Column

iii. Can include CTA and Promo Images with 2 column/1 column links

 - ii. Section Link Optional link for the section
 - iii. Open In Target selection for the optional link will allow you to open in new page or same page.
 - iv. Links Allows you to add links for the give section
 - 1. Link Text Label text for the link
 - 2. Link Valid path for the link
 - 3. Open In Target selection for the link will allow you to open in new page or same page.
 - k. Links This will show if user selects Promo with Single Link List and allow's you to add a link for the section. i. Link Text – Label text for the link
 - ii. Link Valid path for the link
 - iii. Open In Target selection for the link will allow you to open in new page or same page.
- 4. Navigation Item 2
 - a. Select Navigation Type Selection that allows you to select the three variations of the navigation menu (Nested Navigation Links, Promo with 2 column Link, Promo with Single Link List)
 - b. Navigation Section Title Title that will display on the Header
 - c. Menu Config This will show If user selects Nested Navigation Links allow s you to add a menu section for the Nested Navigation Links config.
 - i. Section Title Text The Title for the given section you have added
 - ii. Section Link Optional link for the section identifier
 - iii. Open in Target selection for the optional link will allow you to open in new page or same page.
 - iv. Columns Allow s you to add a column for the Nested Navigation Menu Config at most 8
 - 1. Category Link Text Identifier text for the given category column
 - 2. Category Link Optional Link for the category column
 - 3. Open In Target selection for the optional link will allow you to open in new page or same page.
 - 4. Link List Allows you to add links under the given column
 - a. Link Text Label text for the link

- b. Link Valid path for the link
- c. Open In Target selection for the link will allow you to open in new page or same
- page. d. Promo Image - If User selects Promo with 2 Column Link List or Promo with Single Link List allows you to select image path
- Promo Section Headline if User selects Promo with 2 Column Link List or Promo with Single Link List this e. text is descriptive text that shows next to image
- f Promo Copy Text - if User selects Promo with 2 Column Link List or Promo with Single Link List copy text that shows along with promo image
- Promo Link Label -- if User selects Promo with 2 Column Link List or Promo with Single Link List this is the a. text for the optional link
- Promo Link if User selects Promo with 2 Column Link List or Promo with Single Link List this is the valid h. page path or URL for the optional link
- Promo Open in If User selects promo with 2 column Link or Promo with Single Link List this is the target i selection for the optional link either open in a new page or the same page.
- Link List This will show if user selects Promo with 2 Column Link List allows you to add a linked list section j.
 - Section Link Text Title text for the given section i
 - Section Link Optional link for the section ii.
 - iii. Open In Target selection for the optional link will allow you to open in new page or same page.
 - iv. Links Allows vou to add links for the give section
 - 1. Link Text Label text for the link
 - 2. Link Valid path for the link
 - 3. Open In Target selection for the link will allow you to open in new page or same page.
- k. Links This will show if user selects Promo with Single Link List and allows you to add a link for the section. i. Link Text – Label text for the link
 - ii. Link Valid path for the link
 - iii. Open In Target selection for the link will allow you to open in new page or same page.
- Navigation Item 3
 - a. Select Navigation Type Selection that allows you to select the three variations of the navigation menu (Nested Navigation Links, Promo with 2 column Link, Promo with Single Link List)
 - Navigation Section Title Title that will display on the Header b.
 - Menu Config This will show If user selects Nested Navigation Links allow syou to add a menu section for the C. Nested Navigation Links config.
 - i. Section Title Text The Title for the given section you have added
 - Section Link Optional link for the section identifier ii.
 - iii. Open in - Target selection for the optional link will allow you to open in new page or same page.
 - iv. Columns - Allow s you to add a column for the Nested Navigation Menu Config at most 8
 - 1. Category Link Text Identifier text for the given category column
 - Category Link Optional Link for the category column 2
 - Open In Target selection for the optional link will allow you to open in new page or same 3. page.
 - Link List Allow s you to add links under the given column 4
 - a. Link Text Label text for the link
 b. Link Valid path for the link

 - c. Open In Target selection for the link will allow you to open in new page or same page.
 - d. Promo Image If User selects Promo with 2 Column Link List or Promo with Single Link List allow s you to select image path
 - Promo Section Headline if User selects Promo with 2 Column Link List or Promo with Single Link List this e. text is descriptive text that shows next to image
 - Promo Copy Text if User selects Promo with 2 Column Link List or Promo with Single Link List copy text that f. shows along with promo image
 - Promo Link Label -- if User selects Promo with 2 Column Link List or Promo with Single Link List this is the a. text for the optional link
 - Promo Link if User selects Promo with 2 Column Link List or Promo with Single Link List this is the valid h. page path or URL for the optional link
 - Promo Open in If User selects promo with 2 column Link or Promo with Single Link List this is the target i. selection for the optional link either open in a new page or the same page.
 - Link List This will show if user selects Promo with 2 Column Link List allows you to add a linked list section i. Section Link Text - Title text for the given section
 - ii. Section Link Optional link for the section
 - iii. Open In Target selection for the optional link will allow you to open in new page or same page.
 - iv. Links Allow s you to add links for the give section
 - 1. Link Text Label text for the link
 - 2. Link Valid path for the link
 - Open In Target selection for the link will allow you to open in new page or same page. 3
 - k. Links This will show if user selects Promo with Single Link List and allows you to add a link for the section.

i.

- i. Link Text Label text for the link
- ii. Link Valid path for the link
- iii. Open In Target selection for the link will allow you to open in new page or same page.
- 6. Navigation Item 4

i.

- a. Select Navigation Type Selection that allows you to select the three variations of the navigation menu (Nested Navigation Links, Promo with 2 column Link, Promo with Single Link List)
